Mr. Clark,

We can recall those boxes for you on a new request. Please submit the request for those boxes on a new request. Thru the FOIAonline portal.

Thank you,

Mark

Importance: High

Mr. Clark,

After further review of Dominiques files I have run across some minor roadblocks that will require some clarification on your part and may require additional time to complete.

1. I reviewed the attorneys legal review and did find that we will need to complete redactions in order to send you several (about 16) records. This is where I am going to need your clarification.

Are you willing to accept the records with the information redacted as non-responsive (Personal identifiable information such as Residential addresses, Enforcement Confidential Information, Residential homeowners names, Private well locations and owners, Confidential business information? (if not then we would have to convert your request into a partial denial which will take a much longer time to process)

2. There are also several boxes of records (24 boxes) of potentially responsive records located at our off site federal records site. These records may contain responsive records but the only way to know is to recall them at \$21.75 per box. Please note these may already be records we already have just the paper copies. Did you want me to recall those boxes?

Please let me know how you would like for me to proceed?

Thank you,

Mark Muro

Importance: High

Mr. Clark,

I am contacting you regarding your FOIA request for records related to **ZONOLITE, Minneapolis, MN.**

I have just been reassigned your request as the last specialist (Dominique Fuqua) that was assigned to your request has left the Agency.

I just received her files today and I am going over them and making sure everything you requested is complete.

I am hoping you will allow me a week additional time to complete your request as I have to gather all the records and correspondence.

Will you be willing to extend the due date until **June 28, 2019?**

(I think I will be able to finish prior but just want to ensure I can get it done as I am only in the office 2 more days this week).

Thank you,

Mark Muro
